THINGS TO DO WITH YOUR LITTLE:

The back to school edition

1. Walk your Little's school campus together. Ask them what they're most excited about and what they're most nervous about.
 2. Take your Little to pick out a new, special school folder, water bottle, mask or lunch box. Just make sure that it's OK with the Parent and that it's school approved.
 3. Play an educational game together to help refresh those skills! Some AMAZING games are:
Totally Tut
Pharaoh's Phonics
Where in the World is Carmen Sandeigo
The Game of Space
- *The INdianapolis Children's Museum has a gift shop with LOADS of educational things to buy online. AND you're helping the Museum at the same time!
4. Get your nails done together before school starts or give each other manicures! Just make sure to keep those hands washed and germ free!
 5. Help your Little get a library card!
 6. Do a science experiment! 5 Below has some real bargains!
 7. Take a nature hike and work together to identify the trees you see!
 8. Start a bug collection and help your Little learn about the classification system for living things!
